

SMDA Assurance Fees

Published on: 31st July 2018

Effective from: 1st January 2018

Reference: SMDA-236

Classification: **GREEN** – Information can be shared with other organisations or individuals in the smart metering network.

1. Background and Purpose

The SMDA Co. Board has approved a scheme Charging Model, which sets out how the scheme is funded. Current version of the SMDA Charging Model document is published on SMDA website: www.smda-scheme.co.uk. That model includes a commitment to publish from time to time a table of fees associated with SMDA testing and assurance.

This document sets out the fees for SMDA testing and assurance. Information such as how the fees are calculated and how they fund the scheme is out of scope of this document, but can rather be found in the accompanying Charging Model document.

2. Definitions

The key definitions used in SMDA scheme documents are provided in the SMDA Glossary Document.

Additional definitions for the purposes of this document are set out below:

SMDA Assurance: Those SMDA testing and assurance activities mandated by SMDA scheme in order for a device to be assured and thereafter added to the SMDA Device Assurance Register.

Re-testing: The re-running of some or all of the testing and assurance process for a device following a failure in SMDA Assurance testing and assurance activities.

Partial testing: Those SMDA testing and assurance activities following a Device exemption or Baseline exemption process as defined within the SMDA scheme documents.

3. Assurance and Testing Fees for SMDA members and non-members

The Assurance Fees for SMDA members and non-members are published in Table 3-1 below.

Type of device	SMDA Member Fees	Non-Member Fees
Electricity meter	£90,000	£99,000
Gas meter	£95,000	£104,500
In-Home Display	£40,000	£45,250
Combined PPMID/ IHD Display Device	£49,500	£55,935
Day rate for Re-testing, Pre-Testing & Issue Analysis	£1,250	£1,400
Day rate for Partial testing	£1,850	£2,035
